# **EXAM POLICY**

# **EARLY YEARS**

The assessment for children in Early Years is based on progress and not on '**Pass**' or '**Fail**'. It focuses on child's strengths rather than deficit. The assessment is based on qualitative judgment of children's activities, status of their health, nutrition, physical and social well-being.

Observation of how and where children spend time, their social relationships, use of language, modes of interaction, information about health and nutrition habits are taken into account while assessment.

Teachers accordingly design and modify suitable classroom practices by viewing and observing the students' performances. The goal is to make sure that children maintain a healthy well-being, become effective communicators, involved learners and are connected with their environment.

Apart from the above teaching and learning practices, reinforcement days are scheduled at the end of every theme. We also conduct Summative Assessments I and II (September & February / March respectively) keeping in track the development of written & oral skills of the students.
